Dear Deacon Ray,

On behalf of our many homeless clients I thank you for your generous gift of overstuffed back packs.

With winter packing an early punch our needs are many. There are far too many people living out of doors, huddled in dark and cold alleys and doorways and barely existing in tents throughout the lonely wooded areas of our county. They are frightened and suffering and our visits to them often bring the only friendship and warmth they know.

Your gifts allowed us to provide Christmas gifts to many. We wish you could have been with us to witness the joy your kindness brought to those at the breakfast and also to those too frightened and cold to make it to the church.

Again, our thanks to you for helping us to carry on God's work as we remember those who are all but forgotten among us. Your friendship to us is cherished, as always, and your gifts can often mean the difference between life and death to our clients.

Most sincerely,

ROBIN REILLY  
Executive Director
